

Due to the wildfire affecting our area, we have made the difficult decision to cancel the first day of Mad About Science scheduled for Monday, July 27.

This decision was made out of an abundance of caution because of current evacuation activity, poor air quality, transportation challenges, and communication issues. The safety of our students, families and staff is our highest priority.

At this time, we plan to begin camp on Tuesday, July 28, provided conditions are safe. We will continue to monitor the situation closely, and will communicate any additional schedule changes.

Thank you for your understanding and flexibility during this time. We hope everyone stays safe, and we look forward to welcoming students to Mad About Science on Tuesday.
